Northwest Open Access Network (NoaNet)
Request for Qualifications & Quote (RFQQ) – Addendum 1

Email Dissemination: May 22, 2026
Posted: May 22, 2026

RFQQ_2026-02 Addendum 1 is hereby published in response to questions received by registration of RFQQ by the Close of Business (COB) on May 22, 2026, and disseminated via email to all registered respondents, and posted on the NoaNet website¹.

The overriding purpose of the RFQQ is intended to solicit quotes and qualifications from consulting engineering firms to provide professional services for the design, construction, construction management, and documentation for the buildout of new FTTH and FWA broadband networks and the expansion of existing networks throughout WA state.

Engineering firms are not required to respond to all unit pricing of the Exhibit E – Unit Contract Pricing Sheet – OSP or Exhibit F – Unit Contract Pricing Sheet – FWA.

Detailed information on anticipated volume, and value is not available at this time, and will be determined as NoaNet engages with engineering firms under this solicitation. Counties for which project areas are awarded are Clallam, Cowlitz, Island, Pierce, Skamania, Snohomish and Thurston Counties.

Updates and Modifications:

- None

Question & Answer Responses

QUESTION	ANSWER
May a Proposer submit pricing on only one Exhibit (e.g., Exhibit E – OSP only, with Exhibit F – FWA fully zeroed out), or a subset of line items within either Exhibit, and still be considered responsive?	Yes as indicated in the RFQQ Engineering Firms are not required to respond to all unit pricing of Exhibit E or Exhibit F.
Is there a breakdown of volumes for pricing?	Only high-level designs have been completed; detailed information is not available at this time. This RFQQ is calling only for unit pricing under this solicitation.
What is the annual spending by category of work?	No annual spending by category of work has been determined at this time.
Are there any maps/KMZ available for this project?	Only high-level designs have been completed. Detailed information on anticipated volume and value is not available at this time and will be determined as we engage with engineering firms under this solicitation. Award notifications provided as public notice by WSBO can be found on the following link: https://deptofcommerce.app.box.com/s/xysbvt5djn2clvboq8dirtw7z0m3d5ih . Project areas that have been awarded to NoaNet show multiple project areas throughout WA state. Project area map provided shows areas as linked to WSBO web site here: BEAD Project Areas . Counties for which project areas are awarded are Clallam, Cowlitz, Island, Pierce, Skamania, Snohomish and Thurston Counties.
Can NoaNet share any information regarding the anticipated volume, value, and geographic distribution of work expected under this contract over the 48-month term? Given that NoaNet's plant spans across Washington State, understanding where the majority of the work will be concentrated is just as	Only high-level designs have been completed. Detailed information on anticipated volume and value is not available at this time, and will be determined as we engage with engineering firms under this solicitation. Award notifications provided as public notice by WSBO can be found on the following link: https://deptofcommerce.app.box.com/s/xysbvt5djn2clvboq8dirtw7z0m3d5ih . Project areas that have been awarded to NoaNet show multiple project areas throughout WA state. Project area map provided shows areas as linked to WSBO web site here: BEAD Project Areas . Counties for which project areas are awarded are Clallam, Cowlitz, Island, Pierce, Skamania, Snohomish and Thurston Counties.

important as the overall scope. Specifically, are there budget figures, work volumes, or regional focus areas that can be disclosed — or reasonable assumptions we can make — for each of the professional services categories listed in the RFQQ:
